

## SUM OF ALL THRILLS™

How much energy does it take for a jet to fly or a rollercoaster to climb its first hill? Discover the answers to these questions as you uncover your "inner engineer". Using the principles of math, science and engineering "kids of all ages" can design and customize their very own thrill ride. Once your creation is complete – take off in a simulator to experience your personalized jet plane, bobsled or rollercoaster ride.

Presented by Raytheon

GUESTS MUST TRANSFER FROM WHEELCHAIR/ECV

PERSONS WHO DO NOT MEET THE MINIMUM HEIGHT REQUIREMENT OF 48" (122 CM) MAY NOT RIDE.

## DON'T WASTE IT!

Compete with your team to discover how to reduce, reuse, and recycle the waste you create every day. Pilot a mini-trash truck through interactive games that allow you to "recover the resource" and save the environment!

Presented by Waste Management, Inc.

## STORMSTRUCK.

Experience the power of a weather event complete with wind, rain and lightning while learning how to best prepare your home for impending weather perils. Kids will enjoy building a storm safety kit and everyone will have the ability to send home information from the "Weather Safe" kiosks.

Presented by Federal Alliance for Safe Homes (FLASH) and its partners Renaissance Re, Simpson Strong-Tie and State Farm

## ENVIRONMENTALITY CORNER

Learn important information about how you can protect and preserve our environment. An interactive papermaking station allows children of all ages the chance to learn about papermaking and even make their own sample to take home.

## TEST THE LIMITS LAB

Product safety testers needed to shatter, torture, slam and drop the products that Underwriters Laboratories engineers test everyday! Fun for kids of all ages, this safety testing experience allows you to analyze the safety and design of everyday products and "test their limits". The Safety Smart Lab provides short presentations on how to keep your family safe and secure at home.

Presented by Underwriters Laboratories Inc.

## KIM POSSIBLE WORLD SHOWCASE ADVENTURE

Embark on an international adventure to save the world from comical villains and their mad inventions. Register at the Recruitment Center to receive your "Kimmunicator" and mission assignment that takes you on an exciting quest throughout the World Showcase. Follow the clues and "save the world!"

## ROCKIN' ROBOTS

You are the conductor as these four robots take the stage to create beautiful music. Direct the robo-band as they use everything from metal chimes, gongs, crates, and car horns to create music with a beat.

Presented by KUKA

## THE GREAT PIGGY BANK ADVENTURE

What's your dream goal – a college education, ultimate vacation, room makeover or to be able to retire in style? This interactive adventure is led by your own P.I.G. (Personal Investment Guide) who guides you through the up and downs of saving and investing.

Continue your adventure online at: [www.thegreatpiggybankadventure.com](http://www.thegreatpiggybankadventure.com)

Presented by T. Rowe Price

## SMARTER PLANET

Smarter technology is leading to a smarter planet! Have you ever imagined being the star of your very own video game? IBM has designed a new way to play and puts you in the game at Run Time. Create an avatar that runs, jumps and looks just like you and then play your way through computing history. The fun doesn't have to end at the finish of the game because you can email a version home and continue playing!

Presented by IBM

## KIM POSSIBLE WORLD SHOWCASE ADVENTURE

Embark on an international adventure to save the world from comical villains and their mad inventions. Register at the Recruitment Center to receive your "Kimmunicator" and mission assignment that takes you on an exciting quest throughout the World Showcase. Follow the clues and "save the world!"

## VIDEO PLAYGROUND

Experience the newest in Disney Interactive video games. You don't have to be a kid to get caught up in the excitement! Feel like you're a part of the action and experience gaming like you've never seen it before!

## SEGWAY® CENTRAL

Have you seen the world's first self-balancing, electric powered personal transportation device? Test a Segway® Personal Transporter (PT) yourself, and move forward, backward, or stay at rest on the cutting-edge alternative to walking.

Presented by Segway®, Inc.

## WHERE'S THE FIRE?

Save the most dangerous house in America by identifying everyday fire hazards! Small children can "play it safe" in a house designed specifically to educate them on escape routes and to "stop, drop, cover your face and roll." Discover your inner firefighter at the Firefighter Photo station and send a photo postcard to family and friends at home or try to become a "Fire Chief" by answering the most questions correctly at the Burning Questions stations.
